SXT Lite2 \$49

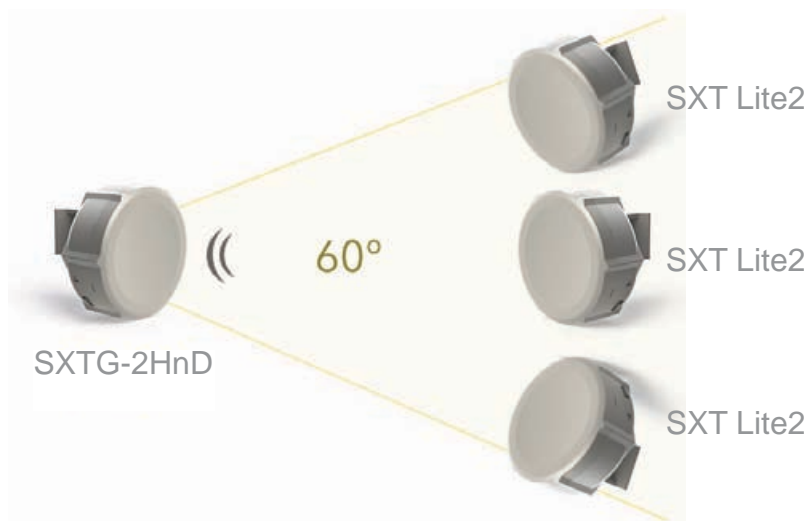

SXT is a low cost, high speed 2GHz outdoor wireless device, now also available as a low cost Lite version for just \$49! The new SXT Lite has a higher performance Atheros CPU, and up to 27dBm (500mW) output power transmitter.

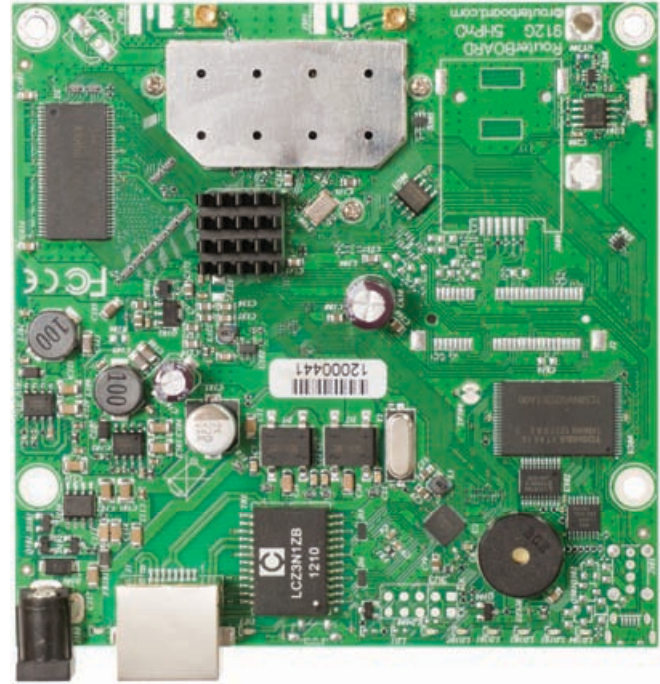

SXT can be used for point to point links, or as a CPE for point to multipoint installations.

Complete with a ready to mount enclosure and built-in 10dBi antenna, the package contains everything you need to set it up in a matter of minutes.

Order from your distributor. More info about the product: <http://routerboard.com/RBSXT-2nDr2>

RB911G-5HPnD \$55

The RB911 is a small wireless router with an integrated high power dual chain wireless card in 5GHz. The shielded metallic Gigabit port helps to utilize the full potential of 802.11n wireless speeds.

The integrated wireless card is capable of up to 1000mW output power. It has built in 16kV ESD protection on both the Ethernet and the MMCX ports.

More information about the device: <http://routerboard.com/RB911G-5HPnD>

Model	RB911G-5HPnD
Features	1 Ethernet, Gigabit, High power, Dual chain
CPU	Atheros AR9342 600MHz network CPU
Memory	32MB DDR onboard memory
Data storage	onboard NAND memory chip
Ethernet	One Gigabit port with Auto-MDI/X
Wireless	Built in 5GHz AR9283 802.11a/n, 2x MMCX connectors
Extras	reset, beeper, signal and status LEDs
Expansion	-
Power options	PoE: 8-30V DC on Ether1 (Non 802.3af).
Dimensions	105x105mm; Weight: 67g
Max consumption	11W at 24V
OS	Level3 license (wireless CPE/PtP mode)

Biggest MUM in Europe!

The MUM in Europe took place March 14-15 in Zagreb, the capital city of Croatia.

We had over 900 visitors this year, making this the second largest MikroTik User Meeting of all time. Indonesia in 2012 still keeps the number one spot with 1100 attendees.

Many new and exciting products were announced at the MUM. We had 17 guest presentations, 31 exhibitor stands and a very large number of MikroTik routers in the conference.

Tutorial video for RB951

We have made a new tutorial video which applies for all our home access points and indoor devices. It's so simple - just plug in, and after a few clicks you have a working AP. Watch the video!

SEXTANT G 5HPnD **\$110**

We have updated the SEXTANT with our latest features.

The SEXTANT is a 18dBi 5GHz antenna with a built in RB911 router. It has two polarizations to give you all benefits of 2x2 MIMO in 802.11n.

Inside is the high power RB911 dual chain wireless device, with high performance, high output power, and a Gigabit Ethernet port, to fully utilize the benefit of 802.11n high speed wireless.

Easy to use and quick to deploy, SEXTANT is ideal for point to point links.
